

KRONOTEX premium sound

Technical Data

| Characteristics | Test standard | Identification |
|--------------------------------------|------------------|--|
| Composition | | PET carrier foil (aluminum), a non-aging polyurethane heavy layer, high quality HDPE film lamination |
| Thickness | | 1,80 mm |
| Grammage | | 1500 g/m ² |
| Bulk Density | | 833,33 kg/m ³ |
| Footfall sound attenuation | DIN EN 16251-1 | 18 dB |
| Reduction of reflected walking sound | | 25 % |
| Suitability for underfloor heating | DIN CEN/TS 16354 | 0,01 m ² K/W |
| Evens out slight irregularities | | 1,02 mm |
| Stability under pressure | DIN CEN/TS 16354 | up to 22 t/m ² |
| Reaction to fire | DIN EN 13501-1 | Bfl-s1 |
| Applicable German technical approval | | Z-158.10-50 |
| Dimensions | | 8.500 x 1.000 mm |
| Pieces per pack | | 1 roll = 8,5 m ² |
| Packs per pallet | | 40 rolls = 340 m ² |
| Palett dimensions | | 1.200 x 800 x 1.200 mm |
